

June 2016

Safety Seminars

| | |
|-------------------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <p>Wednesday, June 1, 7:00pm</p> <p>Ground School Workshop: Weather</p> | <p>Herb Patten will present a workshop on Weather Services, using real-world scenarios for a cross-country flight and the weather Go/No-Go decisions made along the way. Workshop participation is free to SCFC Ground School students, and SCFC members.</p> |
| <p>Saturday, June 4, 12:00pm</p> <p>Mountain Flying</p> | <p>Join CFI Adam Kelly for an overview of elements of mountain flying. We will look at terrain, mountain weather patterns, how to calculate density, survival gear and more.</p> |
| <p>Wednesday, June 8, 7:00pm</p> <p>Electricity for Pilots</p> | <p>Join us for Ben Taber's seriously humorous take on general aviation and dive deeper into your pilot knowledge bank at this fun and challenging seminar. Mr. Taber will introduce us to "Electricity for Pilots" and review electrical use in everyday flight, static electricity buildup and discharge, and discuss possible failure scenarios and resolutions for each situation.</p> |
| <p>Saturday, June 11, 12:00pm</p> <p>Easy Cross-Country Flight: What Could Go Wrong?</p> | <p>Join Herb Patten for a review of a recent aviation accident that occurred during a flight from Santa Ana to Truckee. We will analyze the factors that contributed to this accident and along the way we will uncover some surprising new information.</p> |
| <p>Wednesday, June 22, 7:00pm</p> <p>Airmen Certification Standards</p> | <p>Join DPE Vince Nastro as he reviews the New Airmen Certification Standards. After years of careful development, the FAA's new Airmen Certification Standards (ACS) come into effect on June 15th.</p> |
| <p>Saturday, June 25, 12:00pm</p> <p>Grand Canyon SFR</p> | <p>SCFC member Dave Kramer takes a look at the Grand Canyon's SFR. The Grand Canyon is a popular tourist destination that offers pilots unique challenges and opportunities to improve their skills. Attend this seminar and unlock a new destination for you to take.</p> |
| <p>Wednesday, June 29, 7:00pm</p> <p>IFR Round Table: Activating the Approach</p> | <p>Join Brian Elliot for San Carlos Flight Center's IFR Round Table. This session topic: Activating the approach. GPS is a wonderful tool for instrument flying, but sometimes it can be tricky. Is your approach loaded? Is it activated? This is something you really need to know!</p> |
